TIMESMED A BRIEF

TIMESMED is a comprehensive healthcare platform for both Doctors and Patients.

It enables doctors to seamlessly manage their appointments, and patients to find and book appointments with doctors. TIMESMED is the ideal SAAS for doctors to manage their practice.

Apart from appointment scheduling, TIMESMED offers Virtual Clinic, where consultation happens over the phone / email / video chat. TIMESMED also uses Google's location-based map service to consult and provide healthcare and healthcare-related services at Home.

In summary, TIMESMED is a holistic healthcare platform where users can either avail healthcare services at hospital or at home by scheduling an appointment with a doctor using the TIMESMED services app, or they can get consultations through video chat over the phone through the TIMESMED virtual platform. It allows the doctors and patients to schedule / reschedule / cancel or swap appointments, while also keeping both parties notified of the same well in advance.

TIMESMED also provides regular monitoring of health records where patients can benefit from the opinions of single or multiple doctors. The platform also offers Symptoms Checker based treatment plans and services.

Mission

TIMESMED's mission is to serve mankind through timely healthcare services using all the best possible means. TIMESMED is driven by great values and offers a holistic healthcare platform to enable mankind to live healthier and happier.

Collaborate, Communicate & Connect

TIMESMED Patients' web apps offers scheduling, visit tracking, medical history, online prescription, lab reports on cloud and more.
